**“Vocational training is spring board of Victory”**

**PROSPECTUS**

# MESSAGE FROM FOUNDER'S DESK.....

**As the founder of Great Harvest Industrial Training Institute, I, Mr. Kunjumon, have always believed in the transformative power of education. In a world where technology and innovation are constantly reshaping industries, it is essential to equip our students with the skills and knowledge they need to thrive.**

**My vision for Great Harvest was born from a deep understanding of the challenges faced by today's learners. I wanted to create an institution that not only imparts theoretical knowledge but also emphasizes practical skills and real-world applications. Our curriculum is designed with input from industry experts, ensuring that our graduates are not only knowledgeable but also ready to meet the demands of the workforce.**

**At Great Harvest, we foster a nurturing environment where students are encouraged to explore their passions and develop their potential. Our dedicated faculty members are more than just instructors; they are mentors who guide and inspire students every step of the way. We believe that every individual has unique talents, and it is our responsibility to help them discover and cultivate these gifts.**

**Community engagement is another cornerstone of our philosophy. I firmly believe that education should extend beyond the classroom. Through various community projects, our students have the opportunity to apply their skills in meaningful ways, making a positive impact on society while gaining invaluable experience.**

**As we look to the future, my commitment to our mission remains unwavering. I envision Great Harvest Industrial institute as a leader in education, constantly adapting and evolving to meet the needs of our students and the community. Together, we are sowing the seeds of knowledge and innovation, ensuring that every student reaps the rewards of their hard work.**

**Thank you for being a part of our journey.**

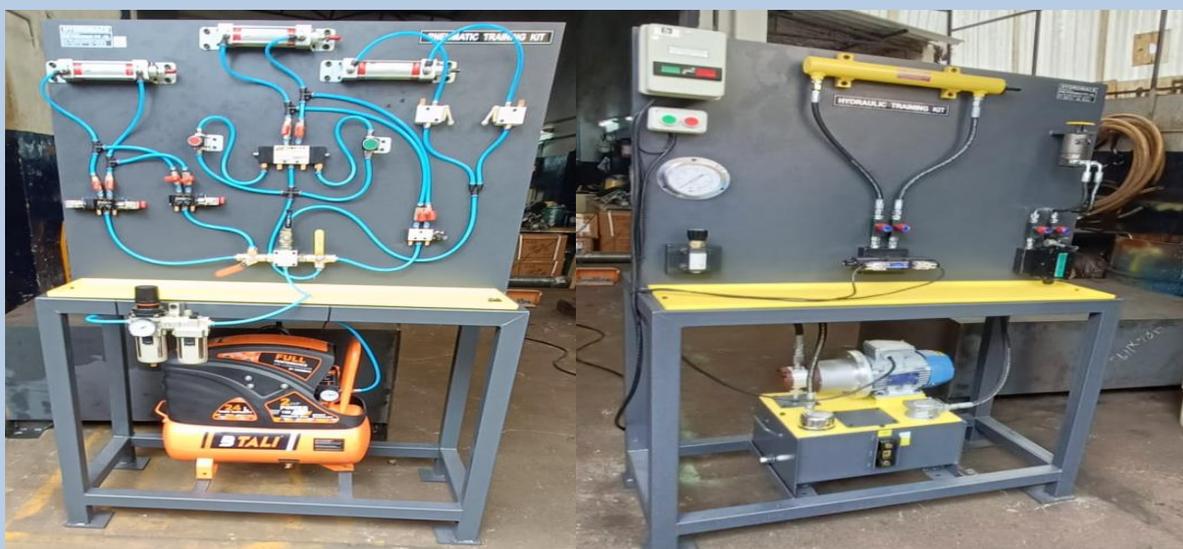

**— Mr. Kunjumon**

**Great harvest Educational Society was established over 15 years ago with the object of starting and managing educational institutions. The Society today administers a variety of schools, Theological College and an Industrial Training Institute for poor peoples. Great harvest Industrial Training Institute established in 2023 offers many job oriented courses with the aim of producing skilled Technicians through technical education.**
